Here's a little bit about me. I am an environmentalist. The recent trends in global warming have alarmed me to no extent. I have taken serious steps in my life to reduce my carbon footprint. Are you a like minded person?

### Instructions for Values Selection

On the next page, you'll see a list of values. Think about the values as being something that is important to you where you stand by them and they represent YOUR core beliefs.

How do you choose?

Imagine if the value was removed from your life. Would that make a big impact? What if you added the value in your life? How would you feel?

Choose values for yourself as if nobody is watching. These represent YOU. As you select the value, be mindful of your thoughts. If you find that you're thinking you "should" select it based on family, friends, culture, whatever reason, then reassess if that is a value for YOU or someone else.

What are your top 10? Select on the next page.
